

Report on Two Days National Seminar Organized

The department of PGDMLT conducted a seminar titled “**Emerging Trends and Challenges in Medical Laboratory Technology**” in association with Department of Microbiology on 6th and 7th March 2017.

The Seminar received a lot of praise and appreciation for the content. The key note speaker Dr Girish Mahajan was an eminent a microbiologist from the industry and he is vice president of Hi-Media. He delivered a lecture on Rapid methods of microorganism’s detection.

The second speaker Dr. Milind Bhide is a practicing pathologist and delivered a lecture on Lipid/ Diabetic profile. He fascinated the need for preventing the Diabetes and High Cholesterol conditions.

Dr. Praful Godkar as eminent author in the field of medical Lab Technology interacted with the students and delivered a lecture on automation. This was followed by hands on experience on PCR machine and Electrophoresis unit by Mr Pramod Kamble and Mr Prajit Nambir from the department of Biotechnology. The hands on session were well appreciated by the students.

On the second day Dr Pramod Ghogare delivered a lecture on “Advanced Immunological methods”. It was well accepted by the students.

Dr Manju Phadke delivered a lecture on “Emerging and re-emerging diseases and related laboratory tests”. In the city of Mumbai.

Students made poster presentation and Paper presentation on various topics and interactive Quiz was conducted, prizes for the best poster and paper presentation was given.

The Seminar had a registration of 87 delegates across Maharashtra, Gujarat and Uttar Pradesh.

Dept.of DMLT and Dept. of Microbiology Staff with Dr. P.B. Godkar

Dr.P.B.Godkar Delivering a lecture on “Automation in Biochemistry”.
